List of Tables

Table 1. Distribution of selected maternal demographic characteristics	4
Table 2. Preconception maternal body mass index categories	5
Table 3. Prevalence of preconception underweight by maternal demographic characteristics.	6
Table 4. Prevalence of preconception normal weight by maternal demographic characteristics.	7
Table 5. Prevalence of preconception overweight by maternal demographic characteristics	8
Table 6. Prevalence of preconception obesity by maternal demographic characteristics	9
Table 7. Prevalence of selected maternal health problems during the 3 months before pregnancy	10
Table 8. Prevalence of preconception counseling from a health care worker by maternal demographic characteristics.	11
Table 9. Prevalence of topics discussed by health care provider among women reporting preconception counseling.	12
Table 10. Prevalence of preconception behaviors during 12 months before pregnancy	13
Table 11. Prevalence of unintended pregnancy by maternal demographic characteristics	14
Table 12a. Pregnancy intention categories and unintended subtypes.	15
Table 12b. Unintended pregnancy subtypes among women reporting unintended pregnancy.	15
Table 13. Prevalence of pregnancy prevention methods among women avoiding pregnancy during pre-pregnancy period	16
Table 14. Prevalence of trying to conceive during pre-pregnancy period by maternal demographic characteristics.	17
Table 15. Prevalence of avoiding pregnancy during pre-pregnancy period by maternal demographic characteristics.	18
Table 16. Prevalence of neither trying to conceive nor avoiding pregnancy during prepregnancy period by maternal demographic characteristics.	19
Table 17. Reasons given for not using a pregnancy prevention method by those neither trying nor avoiding pregnancy during pre-pregnancy period	20
Table 18. Prevalence of using any postpartum pregnancy prevention method by maternal demographic characteristics	21
Table 19. Reasons for not using a postpartum pregnancy prevention method	22
Table 20. Prevalence of postpartum pregnancy prevention methods.	23
Table 21. Prevalence of intimate partner violence by time period	24
Table 22. Prevalence of first trimester entry into prenatal care by maternal demographic characteristics.	25
Table 23. Trimester of entry into prenatal care	26

List of Tables (cont.)

Table 24.	Prevalence of getting prenatal care as early as wanted	.27
	Number of barriers to prenatal care among women not getting prenatal care as early as wanted	.28
Table 26.	Specific barriers to prenatal care among women not getting prenatal care as early as wanted	.29
Table 27.	Source of prenatal care payment	.30
Table 28.	Prevalence of prenatal counseling topics covered by health care provider	.31
Table 29.	Prevalence of prenatal HIV testing by counseling about HIV testing	.32
Table 30.	Prevalence of smoking during last three months of pregnancy by maternal demographic characteristics	.33
Table 31.	Smoking behavior during last three months of pregnancy compared to preconception behavior.	.34
Table 32.	Smoking behavior at time of survey compared to behavior during the last three months of pregnancy	.35
Table 33.	Prevalence of drinking behavior during last three months of pregnancy compared to preconception behavior.	.36
Table 34.	Prevalence of low birthweight by maternal demographic characteristics	.37
Table 35a	a. Prevalence of birthweight categories and low birthweight subcategories	.38
Table 35k	o. Prevalence of low birthweight subcategories among low birthweight infants	.38
Table 36.	Prevalence of low birthweight by smoking status during last three months of pregnancy.	.39
Table 37.	Prevalence of preterm birth by maternal demographic characteristics	.40
Table 38.	Prevalence of infant born both at low birthweight and preterm	.41
Table 39.	Prevalence of breastfeeding initiation by maternal demographic characteristics	.42
Table 40.	Breastfeeding duration categories.	.43
Table 41.	Median breastfeeding duration among women initiating breastfeeding by demographic characteristics	.44
Table 42.	Prevalence of WIC enrollment during pregnancy and breastfeeding talk with a WIC staff member.	.45
Table 43.	Prevalence of infant back sleeping position by maternal demographic characteristics.	.46
Table 44.	Prevalence of usual infant sleep practices	.47
Table 45.	Prevalence of no usual infant co-sleeping by maternal demographic	
	characteristics	.48

Table 1. Distribution of selected maternal demographic characteristics.
